

DINNER & AUCTION 2018

Thursday, May 31, 2018, Marriott Sable Oaks, South Portland ME

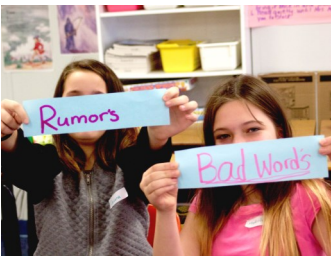

How does your sponsorship make a difference across Maine and in your community?

YOU HELP KIDS WITH DISABILITIES:

School can be painful for children who don't fit in, who don't look like everyone else, who learn differently, or who can't keep up in academics, sports, or social situations because of learning, behavioral, developmental, emotional or physical disabilities. Unfortunately, they are frequently left out, teased or bullied:

"I get laughed at whenever I do something different. I NEVER feel unique – only different and wrong!"

YOU BUILD RESPECT AND INCLUSION:

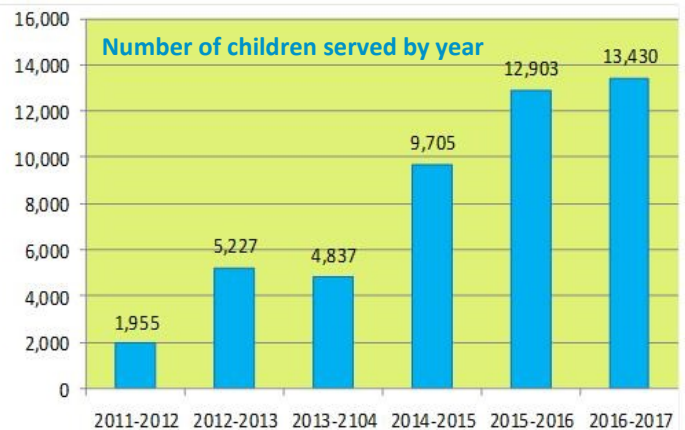

By teaching empathy and understanding, we build safer and more inclusive educational and social communities for kids with special needs. Teachers report that our program really helps students respect, include and stand up for each other. As a result, bullying and exclusion of those with special needs – and the negative effects on their education – can be reduced.

"I learned to treat everybody the way I want to be treated—with respect."

YOU MEET A GROWING NEED IN MAINE:

As an integral partner in Maine schools' anti-bullying, inclusion, and community-building efforts, we are fielding a record number of requests.

"The small elementary school that our students attend is in a rural area without much diversity... We need to find outside sources to help us educate them, to help our students understand about differences that are easily seen and others that are not. We would like to change attitudes and prejudices and build understanding."

"Thank you all for not only coming to our school, and other schools in our district, but also for the work you do to encourage a more accepting, aware, and knowledgeable world! You are making a difference every day!" - Teacher

"You taught me about things that might happen so I'd know what to do if they occurred. Disabilities have nothing to do with the person and who they really are. If somebody ever asked me if we should bully somebody I would say NO!" - Fourth grader

"Thank you for showing me that there's more to disabilities than I knew; there's abilities too." - Fifth grader

Maine schools served since 2004

Acton Elementary School, Acton
Agnes Gray Elementary School, West Paris
Alfred Elementary School, Alfred
